FY2017/PR25

Amman, October 11th 2017

Japan Hands over Medical Equipment
to Jordanian Association for Family Planning and Protection (JAFPP)

The handover ceremony of medical equipment was held at the JAFPP clinic in Amman on Wednesday October 11th 2017, in the presence of H.E. Mr. Shuichi Sakurai, Ambassador of Japan, and Dr. Abed Mansi, vice president of JAFPP.

In 2016, the Government of Japan extended to JAFPP a grant in total of 79,166 US dollars to finance the project titled “The Project for the Improvement of Medical Equipment for Health Clinics”.

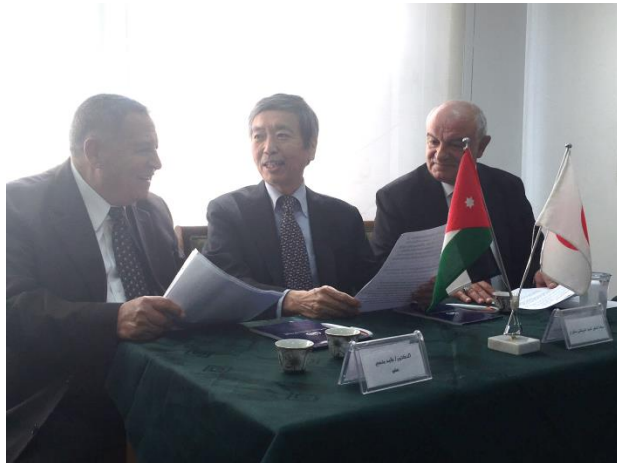

The overall objective of the project is to strengthen JAFPP health clinics’ capacity to provide adequate and good quality reproductive health care services to vulnerable people of Jordan, Syrian and other nationalities.

In the speech delivered during the handover ceremony H.E. the Ambassador stated: *“Humanitarian support by civil society organizations like JAFPP is vital to provide essential services for the people in need at grass root level. [...] I sincerely hope that our assistance will help many mothers to have healthy and sound babies, bringing much love and happiness to the families in this country through the services provided by JAFPP.”*

Under Japanese Grant Assistance for Grass-Roots Human Security Projects, Japan has extended more than 9 million US Dollars for 140 projects to non-governmental organizations, schools, hospitals, and local governments in Jordan since 1993.
