

Visit to the Princess Salma School for Girls in East Amman

May, 1, 2019

On 1 May, H.E. Mr. Hidenao YANAGI, Ambassador of Japan to Jordan, visited the Princess Salma School for Girls, which is one of the project sites by UNICEF in East Amman. The school is a double-shift school for girls (Jordanian students attend the morning shift, while Syrian students attend the afternoon shift), where the rehabilitation of WASH facilities is one of the urgent issues.

Government of Japan extended an assistance with 1.8 million USD to the UNICEF's project titled "Multi-sectoral response to strengthen the resilience of vulnerable women and girls in Jordan" through the supplementary budget in 2018 and as a part of project, existing WASH facilities will be rehabilitated and new facilities will be also constructed.

Ambassador Yanagi had a meeting with the principal of the school, Ms. Laila Odeh and Mr. Robert Jenkins, UNICEF Representative, observed the existing facilities and joined "Water conservation awareness class" in the school. The principal and many of the staffs from the school as well as UNICEF staffs expressed their appreciation for Japanese support of the project.
